The HR Department
Dear Sir/ Madam,

It is my great pleasure to hand pick your company to advance my skills on my career by joining as an intern. I am an undergraduate at Open University of Sri Lanka who is pursuing the degree of bachelor of technology [Hons] with specialization of Computer Engineering and I am also an undergraduate at University of Colombo school of Computing pursuing the Bachelor of Information Technology degree program externally. I have a thorough knowledge in the field of both software and Hardware and I'm capable of performing any tasks and solve problems in a constructive way. I am an enthusiastic individual who can do dynamic programming and develop applications by working in and utilizing different programming languages. I have experience in developing many websites and work on chips from minute repairing.

I am a passionate individual who loves to work in a high thrive challenging environment that pulls me out of my comfort zone and enhance my knowledge and skills in the path of software development. I also have a sound knowledge in the field of electronics and chip repairing where I can successfully perform the job above the expectations. I am a self-motivated person with outstanding communications and excellent leadership skills who prefers to be challenged to achieve tasks by solving conflict resolutions.

To complete my degree, I must undergo a software training session and a hardware training session to improve my practical skills, and I am delighted to undertake my internship at this prestigious organization to serve the firm in an efficient way while growing my skills more towards the success of my profession.

The real cause of choosing your company is that I really enjoy on working in the field of projects you do and it will help me expand my knowledge and skills in the path of my professional career. I can assure you that I will be an exceptional individual who will be a great asset to your organization. I look into this opportunity as an amazing path to enhance my career and working in such a reputed company with talented people will assist me to better myself.

Hereby I have attached my resume with all the highlights of my education and skills, and my portfolio can be viewed at https://firnasahmed.github.io/me/ to know more.

Thank you so much for considering my candidacy for this position. It's my gratification to serve your organization and I look forward to hear from you soon regarding the upcoming process.

Yours sincerely,
Firnas Ahamed

FIRNAS AHAMED

Computer Engineer (R)

PROFILE

A highly motivated and ambitious computer engineering undergraduate seeking a professional internship at a legitimate company in a fast-paced and challenging environment in the field of software and hardware to utilize my skills and experience in real-world challenges and prove to be a useful asset to the organization.

Adopt superior analytical thinking abilities to prioritize tasks, discover technological difficulties, troubleshoot effectively, maintain a rational mindset, and deliver prompt responses. Have outstanding communication skills to deliver creative ideas to broad audiences with variable technical competence. A quick learner with strong communication skill, interpersonal skill, time management, and multitasking abilities. Has the ability to develop solutions with exclusive designs based on the requirements.
